Targeted training

Course centres should use this session to address specific needs of the candidates and their places of work.

Suggested topics that can be covered include:

- ✓ recording patient observations and early warning scores
- ✓ anaphylaxis
- ✓ pregnancy
- ✓ care of the patient with tracheostomy or laryngectomy
- ✓ ReSPECT/ 'do not attempt cardiopulmonary resuscitation' (DNACPR) orders
- ✓ audit
- ✓ equipment
- ✓ drugs
- ✓ further skills training and simulations

Instructors should refer to the Advanced Life Support course manual for further information on these topics.
