

Resuscitation Council UK European Paediatric Advanced Life Support (EPALS) Subcommittee Member Recruitment

Resuscitation Council UK (RCUK) invites applications from healthcare professionals who currently work as a paediatrician to join the EPALS and PILS Subcommittee.

This voluntary post is an exciting opportunity for an enthusiastic EPALS instructor to contribute to shaping EPALS and PILS training in the UK.

As a member of the Resuscitation Council UK (RCUK) EPALS Subcommittee, you will be involved in:

- quality assurance of RCUK EPALS and PILS courses
- shape the development of course content and training materials
- provide expert paediatric medical perspective and voice to the EPALS Subcommittee
- revisions to materials in response to new science and guidelines
- opportunities to represent RCUK at national conferences.

You will gain experience in quality assurance, liaising with other professional bodies and evaluation of resuscitation science.

You would be expected to:

- Attend three half-day meetings a year; these are hybrid, with one face-to-face at our London office. If attending in person, travel expenses will be covered.
- Do a variable amount of work in your own time – this is dependent on time/work commitments (e.g. when there are new guidelines or course materials).

We are looking for the right person with the passion to influence and educate, who brings specialist skills in resuscitation and is interested in ensuring our work in this area is diverse and inclusive.

If you are interested in this opportunity and would like to discuss it further, please email clinicalleads@resus.org.uk.

To apply, please send your CV with a short covering letter explaining why you would like the role to Naomi Reeves, Clinical Lead, at Naomi.Reeves@resus.org.co.uk by 12 June 2026 .
